

## Learn Basic Computer Skills in an Adult Friendly Environment

### **Classes and Seminars**

1. Windows 10 Basic use and Tips and Tricks (3 Afternoon Class) 1:00 PM – 3:30 PM, Thursdays March 2nd, 9th and 16th  
Dan Feinberg, Instructor

2. In addition we are offering our popular Computer Maintenance and Security one afternoon seminar. (one afternoon seminar 1:00 PM to 3:45 PM Thursday March 30th).... *Computer security issues have become of more and more concern in the last year. Learn how to keep your computer safe from the ever increasing world of malware and also keep it running like new.*  
Dan Feinberg, Instructor

*Windows 10 is now the second most used computer operating system in the world, just behind Windows 7 and it is gaining ground fast.*

*The Anniversary Update to Windows 10 has added a number of features and has made it even easier to use and more secure. P.C. World says "Lets not beat around the bush, Windows 10 is Wonderful"*

*The new start menu is easy to use and intuitive, besides standard computer programs there are a large number of really good apps available, Cortana is amazing and the new Edge browser and the multi desktop enabling "Multi-View" gives single screen users much of the power and flexibility of multi screen users.*

This is a series of classes on three consecutive Thursdays so we will cover far more than the basics as well as some really neat tips and tricks. Even if you already use Win 10 you will learn something new.

Those of you who have taken the one day seminar and want to delve deeper into the Windows 10 use please contact Mary at the Cyber Café.
